

OREGON YOUTH CONSERVATION CORPS

Annual Report 2010-2011

Corpsmember Insight

“The program is great to put on a job resume and it has a wide variety of skills you could work on.”

“It’s a life changing program that will increase your knowledge and help you appreciate the environment and want to help change it and keep it clean.”

“Hard work and gives you a foot in the door for future employment.”

“You find a whole new respect for nature and those who work to maintain it.”

“OYCC is dedicated to giving at risk youth a chance to grow as a citizen by offering them career building opportunities through work projects that benefit the community.”

Message from OYCC

We are excited to present the Oregon Youth Conservation Corps' (OYCC) 2010-2011 Annual Report. This report highlights the achievements and successes for the 2010-2011 school year and the programs from the summer of 2011. Each year the funding becomes tighter, partnerships increase and the programs become more creative.

Please allow us to introduce ourselves. OYCC is part of the Oregon Department of Community Colleges and Workforce Development (CCWD). OYCC grants funds to local providers to run youth programs across the state serving individuals between the ages of 13 and 25. There are two main programs. The first is the Summer Conservation Corps (SCC). These are typically 6-8 week long summer work programs. The second is the Community Stewardship Corps (CSC) which helps fund school-year based programs that incorporate hands-on field projects with traditional classroom learning. Other programs administered by OYCC include the Employment and Education Partnership and the Oregon Youth Employment Initiative. All four of these programs are highlighted in this report.

Along with grants, OYCC provides Crew Leader training. Training modules are specific to the different types of OYCC grants. OYCC also serves as a valuable resource for program development, technical assistance and networking with other youth programs.

OYCC is funded primarily through Oregon's Amusement Device Tax through the Oregon Lottery. Additional state funds come from the Oregon State Marine Board (OSMB). OYCC also receives Federal funds. These funds come from the US Forest Service and the Bureau of Land Management.

We hope you enjoy this year's Annual Report!

Doug Denning
OYCC Program Administrator

Jennifer Denning
OYCC Office Administrator

“This program gives you the opportunity to gain skills you can bring with you to other jobs, get school credit, and get paid while you do it.”

“It was a challenging and fun experience, and it helped me become more responsible.”

“It’s awesome because we get to help out the community and grow as a person ourselves.”

Executive Summary

The Oregon Youth Conservation Corps (OYCC) was created by the 1987 Oregon Legislature to emulate the Civilian Conservation Corps of the 1930's.

OYCC builds on the strong connections between positive work experiences, work skills, personal responsibility, commitment to education, and future employment for Oregon's youth.

The purpose of the Oregon Youth Conservation Corps (OYCC) as stated in ORS 418.650 to 418.663 is:

- To establish a disadvantaged and at-risk youth work program in order to perform conservation work of public value in the most cost-effective manner
- To utilize such a program as a means of needed assistance to protect, conserve, rehabilitate and improve the natural, historical and cultural resources of the state
- To utilize such a program to increase education, training and employment opportunities for disadvantaged and at-risk youth for the purpose of improving work skills, instilling the work ethic and increasing employability

Participants must be Oregon residents and 75% of participants must meet the disadvantaged and at-risk requirement:

“Youth at-risk and disadvantaged are those who may be unable to achieve the educational, economic, or social expectations of their community.”

Youth who have strong work skills and positive goals for education and employment are more likely to achieve two important Oregon Benchmarks: completion of high school and avoidance of juvenile crime delinquency. OYCC's student programs include:

- Summer Conservation Corps (SCC)
- Community Stewardship Corps (CSC)
- Oregon Youth Employment Initiative (OYEI)
- Youth River Stewards (YRS)
- Bureau of Land Management (BLM)

Union County

“It is a great way to learn about the environment, gain respect for it, and get valuable work experience.”

Benton County

“It helped me become more independent.”

“Great opportunities to advance your knowledge in team working and problem solving.”

Multnomah County

Lane County

“It’s an awesome experience that has helped many people and many places.”

Summer Conservation Corps

The Summer Conservation Corps (SCC) is OYCC's largest state funded program, with the goal of having a local program in each of Oregon's 36 counties. It provides work crews throughout Oregon to complete projects such as trail construction and maintenance, landscaping, planting, wetlands/bank/stream restoration, invasive species (weed) removal, construction, gardening and greenhouse projects.

OYCC and the Department of Community Colleges and Workforce Development provide program standards, funding, training, technical assistance, program evaluation and monitoring. Additionally, OYCC coordinates and assists in developing education, service and work projects for the Summer Conservation Corps and Community Stewardship Corps programs.

The demographics for the 2011 Summer Conservation Corps were:

- 32% female, 68% male
- 76% Caucasian, 14% Hispanic, 5% Native American/Alaskan Native, 2% African American, 2% Asian/Pacific Islander, and 1% other

“It is a great program and looks good on future job applications.”

Summer 2011 Highlights

- 552 youth were accepted out of 1,310 applicants
- 12 youth served as youth Crew Leaders
- \$1.7 million obtained as match at the local level
- 114,120 project work hours completed
- 24.09% of youth have previous or current involvement in the juvenile justice system

\$915,708
Corpsmember
wages were paid.

Crew Leaders are an invaluable part of the OYCC crew experience. They are a leader, teacher, role model and are admired and respected by their crew. Crew Leaders help youth gain valuable workforce skills that will stay with them for a lifetime. Crew Leaders report that because of the OYCC experience:

- 97.1% of the Corpsmembers can work as part of a team
- 99.4% of the Corpsmembers have increased their awareness of safe work habits
- 97.4% of the Corpsmembers have more confidence in themselves

Corpsmembers report that because of the OYCC experience:

- 99.6% can take responsibility for their actions
- 98.2% have the knowledge and skills to search for and obtain a job
- 94.7% have an interest in furthering their education

“I would tell a friend that it’s a great opportunity to learn more about the environment and meet new people.”

Community Stewardship Corps

The Community Stewardship Corps (CSC) is comprised of innovative, community-focused alternative education programs. OYCC partners with 23 alternative education programs statewide. Youth gain valuable education, employment, work ethic, environmental knowledge and leadership skills through integrated classroom field-based learning projects.

Crew activities include natural resource projects such as: trail construction and maintenance, invasive species and noxious weed removal, riparian and wetlands restoration, construction and cultivation of native plant stock. Corpsmembers also participate in projects such as GIS and GPS mapping and surveying, water/soil sampling and monitoring.

Other community-based activities include volunteering in programs such as SMART (Start Making a Reader Today), Meals on Wheels, providing firewood for the elderly, SOLV (Stop Oregon Litter and Vandalism), local food banks, community gardens, recycling and renovation projects for private businesses, homeowners and public agencies.

“It’s a great place to learn how to get along with other students.”

Education Goals for Oregonians

The 2011 Oregon Legislature addressed the significant role education plays in the lives and futures of Oregonians with the passage of SB 253. This piece of legislation established the most aggressive educational completion goals of any state in the nation: by 2025 every Oregon student must earn a high school diploma and 80 percent must continue their education beyond high school- with half earning an associate's degree or certificate and half achieving a bachelor's degree or more. This has come to be known as the "40/40/20" goal.

OYCC participants are on their way to reaching these goals by earning the credit they need to graduate and move toward further education.

During the 2010-11 school year:

- 2,587 high school credits were earned
- 100 diplomas were awarded
- 26 GEDs were awarded
- 285,086 hours of classroom and field instruction were completed
- \$165,562 in scholarships were awarded

Since 1992, OYCC has awarded 3,051 individual scholarships totaling over \$2.3 million.

During the 2010-11 school year, OYCC programs had 994 applicants for 687 positions. Of those accepted into the program, 28.53% have previous or current involvement in the juvenile justice system.

The demographics of those students accepted were:

- 31% female and 69% male
- 69% Caucasian, 12% Hispanic, 8% African American, 5% Native American/Alaskan Native, 3% Asian/Pacific Islander and 8% other

Oregon Youth Employment Initiative (OYEI)

The US Forest Service (USFS) granted OYCC and the Department of Community Colleges and Workforce Development (CCWD) \$9.627 million of American Recovery and Reinvestment Act (ARRA) funding for the creation of the OYEI.

OYEI is a youth employment initiative for individuals ages 15-24. Projects must fall within the scope of natural resource and conservation education. OYEI is administered by OYCC/CCWD and overseen by the OYEI Advisory and Oversight Committee which includes representatives from: USFS, Governor’s Office, Association of Oregon Counties, Department of Education and Business Education Compact.

As of December 31, 2011, OYCC/CCWD had awarded 286 individual grants to local and regional providers. OYEI funds hired over 3,500 youth and supporting adults, exposed over 25,000 middle/high school students to green issues, recycling and sustainability and had a positive economic affect on every county in Oregon. OYCC is proud to announce that on average, \$0.75 of every dollar went to wages!

Additional information and data is available at: www.odccwd.state.or.us/oyei/

Linn County

Curry County

“We got to see what we accomplished.”

Youth River Stewards

The Youth River Stewards program is a collaborative effort between OYCC, Youth Corps, Inc. and Oregon Parks and Recreation Department. It introduces Community Stewardship Corps students to the needs of Oregon's rivers with three day/two night canoe trips on the Willamette River. The goal of the program is to provide insight and education, a sense of ownership and to instill a lifetime of commitment to Oregon's rivers. Program participants also gain exposure to natural resource career opportunities.

This year OYCC contracted with Educational Recreational Adventures (ERA) to provide the education component of this program. ERA staff taught from the full river curriculum ERA developed and paddled each trip as the Educational Guide. Some of the topics discussed include: identifying bird species, the history and importance of the Willamette River Highway, the Missoula Floods, finding shells of fresh-water mussels (and learning the relationship they have with Cutthroat Trout), geology, the lifecycle of salmon, harvesting Wapato and learning how to throw Atlatl Darts and shoot a bow and arrow. These trips continue to serve as an excellent example of how experiential learning and a natural resources curriculum motivate and captivate students.

Josephine County

"This program helped me learn interesting things about the environment."

"It's nice to hear from the public that we are doing a great job."

Tillamook County

Bureau of Land Management (BLM)

The BLM/OYCC Employment and Education Partnership is a Cooperative Agreement between OYCC/CCWD and the BLM.

BLM Districts determine the location and types of projects to fund and then notifies OYCC of the opportunity. OYCC posts these opportunities on its website soliciting applications. Interested youth corps providers apply for grant funds to complete the posted projects. The BLM makes the final selection of who is awarded a grant.

Special Requirements – youth must be between the ages of 15 through 24 to participate. All youth must work a minimum of 80 hours each under this agreement to be counted as a youth hired at the Federal level. There is a minimum 25% matching requirement. Regular OYCC funds may be used as match.

The BLM awarded over \$287,000 for Fiscal Year 10 and Fiscal Year 11. As of December 2011, BLM funds employed 158 youth and supporting adults, logged a total of 15,289.25 hours on projects and \$157,093.71 went directly toward wages.

BLM Cultural Project

The Salem District BLM funded this project which was operated by Community Services Consortium. It funded five youth and one Crew Leader. The crew built a historically accurate replacement fence at the Yaquina Head Lighthouse. They also dug garden plots and completed trail maintenance leading over the highest point at Yaquina Head.

OYCC Advisory Committee

OYCC has a nine-member Advisory Committee: three members appointed by the Governor, three appointed by the Senate President and three appointed by the Speaker of the House.
